Dentists That Accept Medicaid
Due to the problems of billing and getting paid by the government, there aren’t many dentists that accept Medicaid, but a few do. This means that a senior with no dental insurance may still be able to get the dental care needed. To find a dentist that accepts Medicaid, go to: https://www.health.ny.gov/diseases/aids/general/resources/dental_resource_directory/medicaid_medicare.htm or call the Department of Health at 1-866-881-2809 they may be able to provide additional information.

Elderly Pharmaceutical Assistance Program (EPIC)
EPIC is the name of the State Pharmaceutical Assistance Program in New York. New York is one of the 23 states that have such a program to assist seniors with their prescription drug. For information and eligibility requirements visit: http://www.health.ny.gov/health_care/epic http://www.health.ny.gov/health_care/epic/eligibility.htm http://www.health.ny.gov/forms/doh-3409.pdf

Low Cost Prescription Drugs
Despite the advent of Medicare Part D, and certain state-run assistance programs such as EPIC (outlined above), there are still many seniors that cannot afford their medications. This is the reason why most manufacturers of prescription drugs aid with those who cannot afford their medications. A comprehensive list of these programs is provided by the Partnership for Prescription Assistance as well as the steps to follow to apply for assistance.
For information on Patient Assistance programs visit: https://www.pparx.org/en/gethelp

Another cost saving strategy is to make the switch to generic drugs:
The Food and Drug Administration says: "Generic drugs are important options that allow greater access to health care for all Americans. They are copies of brand-name drugs and are the same as those brand name drugs in dosage form, safety, strength, route of administration, quality, performance characteristics and intended use." Generic drugs cost about 50%-80% less than their brand name equivalents. **Please consult your physician before making the switch**

Another option for those with no insurance:
Obtain a prescription drug discount card. These cards, which should be free provide savings from 45%-80% on your prescription drug costs and are ideal for those with no insurance.
To obtain a free card go to http://www.StuffSeniorsNeed.com/card

Free Cell Phones or Discounted Phone Service:
Lifeline is a federal government program for qualifying low-income consumers designed "to ensure that all Americans have the opportunities and security that phone service brings, including being able to connect to jobs, family and emergency services." Lifeline assistance provides one free or discounted phone (either landline or wireless cell phone) per household. To qualify, seniors will likely have to be on some form of government assistance, such as:
• Medicaid
• Food Stamps
• Supplemental Social Security
• Temporary Assistance for Needy Families
• Low Income Home Energy Assistance Program For information, visit: www.lifelinesupport.org/ls/companies/CompanyListing.aspx?state=NY&stateName=New%20York
Free Phone for Hearing Impaired
A new service that is (at least temporarily) being funded by the FCC, called Caption Call, provides free phones to those with medically recognized hearing loss.
To learn more visit: www.CaptionCall.com/Caregiver (click on Promotions) for more information.

Supplemental Nutritional Assistance Program (SNAP) (Formerly known as Food Stamps):
Apply through your state Office for the Aging, or Elder Affairs Department.
Each state has slightly different requirements based upon income, for more information visit: www.mybenefits.ny.gov

Other Free Food Services
In addition to programs such as SNAP, there are many nutrition programs, offered either by local charities or local governments that can provide seniors with a nutritious meal (typically lunch) and the opportunity to socialize.
Check with your local Office for the Aging to see what programs are available in your area. The link below will send you to a listing of sites. For Nassau County, to access the 14 such sites visit: http://www.nassaucountyny.gov/agencies/seniors/SeniorCenters.html#lunch

Some local programs also assist grandparents and other older relative caregivers of children and promote the retention of the children in a nurturing family environment instead of placement in foster care. Informal caregivers are an invaluable resource to their loved ones and to the health care system because of the care they provide.

https://eac-network.org/supervised-visitation

**EAC, Nassau Supervised Visitation** allows children to continue, rebuild, or establish a relationship with their non-custodial parent without being placed in the middle of their parents' conflict and/or other issues, which results in children having a better chance at being responsible citizens and developing healthy attachments, and allows custodial parents to have comfort knowing their children's interaction with the non-custodial parent is safe. Besides standard supervised visitation, SV also offers therapeutic and coached family visitations.

**EAC, Nassau Enhanced Supervised Visitation (ESV)** is offered to families involved with the Department of Social Services and/or the foster care system. In addition to providing supervised visits, ESV specifically focuses on enhancing parenting skills by providing assistance, encouragement, information, and coaching to parents during visits, family coaches engage and empower parents to be experts on their own children; they are encouraged to identify, understand, respond to their children's needs, and have fun with them.
EAC Nassau Family Treatment Court Supervised Visitation (FTCSV) is by referrals only from Family Treatment Court in cases where parents have been found neglectful as a result of alcohol and/or substance abuse. Because the FTCSV office is located in Family Treatment Court, intakes are completed immediately after a judge makes the visitation mandate, and visits are able to be scheduled within a week. Rather than held at the SV facilities, FTCSV supervised visits take place either at the family’s home or at a community/public location such as a library or restaurant. In a few rare cases, the Department of Social Services will host a supervised visit. Additionally, FTCSV offers monitored visits: rather than EAC Network staff acting as supervisor, staff personally check in with court-appointed supervisors who are conducting the supervised visits.

Generally, the NYCLU only takes on issues that can affect many people directly or involving a small number of people or an individual that could set a precedent that would impact a significant number or people. They are especially interested in issues that may break new ground in interpreting constitutional rights.

Elder Abuse is a hidden crime and takes on many forms that can include:
- Physical abuse
- Emotional abuse
- Sexual abuse
- Neglect
- Financial exploitation

In elder abuse cases the perpetrator is often well-known to the victim. The common profile of an offender is an adult child, grandchild, or other relative who is living with their aging parent or relative. Typically, these offenders are unemployed or underemployed, have mental health or substance abuse issues, and they rely on their older parent or relative for financial support and housing. Victims of elder abuse often do not want their loved ones arrested and prosecuted, but they want help for the offender and for the abuse to stop.

If you are an older adult who has been abused or someone you know is in trouble, call the Nassau County District Attorney's Confidential Tip Line.

Catholic Charities of the Diocese of Rockville Centre began providing Care with Dignity in 1957, soon after the diocese became an entity separate from the Diocese of Brooklyn. There were two Catholic Charities offices then providing mental health and other services. Programs grew to serve people struggling with alcoholism and provide residences for people with developmental disabilities. Catholic Charities is now one of the major service providers of Long Island, with 629 employees, a budget of over $38 million, and 68 sites from Elmont to the East End. The agency served 63,904 people in 2013. Partnerships with 110 local parish social ministry programs make this level of service possible. Catholic Charities is in ongoing contact with parishes to identify needs and develop new ways of responding across Long Island.

Children’s Mental Health In-Home Services Through Health Homes, Care Management services work with children that have been diagnosed with a serious emotional disturbance (SED), complex trauma, HIV/AIDS or two chronic health conditions (i.e., asthma, diabetes, heart disease, high blood pressure, substance abuse, or obesity). Care Management works with the child/family and providers of services to identify service needs, developing an overall rehabilitation goal, and writing service plans with the child/family that include strategies and objectives to address their identified needs. Care management facilitates service delivery, including acquiring benefits, helping child/families make and keep appointments and assisting child/family in arranging needed behavioral health, physical health and psychiatric rehabilitation services and finding appropriate school placement, vocational training or employment.

Agency-owned or operated facilities that provide an alternative living environment for adults with emotional disabilities or substance abuse disorders. Group residences for adults with disabilities may be licensed by the state and may be distinguished according to the level of service residents require.

Service levels depend on the self-care skills residents possess, their limitations in the areas of physical coordination and mobility, and the presence and extent of behavior problems including disruptive or self-injurious behavior.

Teaching Family Homes
Catholic Charities Teaching Family Homes serve children ages 5-18. A specially trained, live-in married couple teaches the skills necessary for children to live successfully in a family, attend school and live productively in the community. With continuous training and supervision, a therapeutic environment is maintained which allows for treatment and family style living. There is an emphasis on working closely with the child’s family to attempt to reunite the family upon the child’s discharge.
Community Residences
Family and Children’s Association – Lakeview House A residential program that provides a therapeutic milieu environment to adolescents ages 13-17 with serious emotional disturbance. It is an out of home placement that provides a structured therapeutic environment and restorative services to assist in stabilizing and maintaining their symptoms and behaviors of their mental illness and reunite the family upon discharge.

Mercy First – Merrick House
The Community Residence is staffed 24 hours a day with awake staff. It houses eight male youth ages 9-14 with serious emotional disturbances. Residents can learn the skills of emotion management and self-care that will enable them to return to their families. In addition, they work with staff on developing their independent living skills, socialization skills, behavior management, medication management, and more. Staff and youth continue to incorporate the Sanctuary Model into the fabric of the Merrick Community Residence program. This is accomplished by youth using Sanctuary tools and trauma sensitive interventions both in the residence and with their families at home.

Well Life Community Residence
The Residence is a 24-hour staffed program. It provides direct supervision and guidance to eight emotionally disturbed adolescent males ages 13-17. The program provides an intensive therapeutic environment and restorative services including but not limited to behavior management, counseling services, independent living skills, daily living skills, socialization skills, medication management, health services and family support services. The goal of the program is to teach the youth necessary skills to be able to return home with their families or community-based placements.

CO Family of Services - Deer Park Community Residence
The program provides an intensive therapeutic environment through 24-hour coverage by staff trained in behavior management, child/adolescent development and the treatment of mental illness. Additional therapeutic linkages are provided through a strong community involvement with outpatient mental health settings, medical providers and educational/recreational settings. The goal of this program is to provide a structured, supportive and therapeutic environment that will equip these children with skills necessary to live at home or in a family like setting in the community. Co-Ed ages 13-17 years.

Residential Treatment Facility RTF
Provides fully integrated mental health treatment and special education services under the direction of a psychiatrist in a well supervised residential setting. RTFs can serve youngsters between the ages of 5 and 21 years of age, but each program generally serves only a portion of this total range. In addition to the NCDSS has contractual agreements with three agencies to assist our TANF customers find full-time employment. Employment services include pre-employment services such as skills assessment, resume preparation, interview techniques, employer/employee expectations, coping skills, conflict resolution, and job placement. Post-employment retention services are designed to ensure that employment is maintained even when problems and/or crises arise. The Welfare Reform Act of 1997 mandates that TANF and Safety Net applicants and recipients be screened for the presence of an alcohol or substance abuse problem. Identifying and assessing clients with substance abuse and mental health problems are the first steps in dealing with these potential barriers to employment. Staff training on substance abuse, the use of appropriate screening instruments, and co-location of substance professionals offer possible solutions to overcoming these obstacles.

Nassau County has been addressing the opioid crisis on multiple fronts, one of them is educating its residents on the use of Naloxone, also known by the trade name Narcan. Nassau County residents, first responders and human service staff learn how and when to administer the lifesaving antidote that can reverse the fatal effects of an Opioid overdose and save a person’s life. Our free Narcan trainings also offer community resources, speakers and information on the latest treatment approaches.

Nassau County Office of Mental Health, Chemical Dependency and Developmental Disabilities became certified as an Overdose Responder Program in late 2012, the first County Certified Program in the State, outside of New York City. Nassau County Office of Mental Health, Chemical Dependency & Developmental Disabilities Services has partnered with community agencies, colleges, local school districts, fire departments, libraries and religious organizations and has hosted more than 210 training events and has trained more than 9800 people on how to administer Narcan since its inception.

Note: If you were hurt or acquired a disease, injury, or illness was aggravated while in the Military, we strongly recommend that you apply for a disability benefit with the help of a trained veteran's counselor at the: Nassau County Veterans Service Agency P:(516) 572-6565 for an appointment.
The Hofstra Law Clinic provides certain types of legal services to individuals who are 150% above the poverty line. Students in the Robert W. Entenmann Veterans Law Clinic help veterans obtain disability (and thus, often, health care) benefits and apply for discharge upgrades. More particularly, students may help veterans submit disability claims to the Department of Veterans Affairs, work on appeals of denied claims, and, help veterans obtain increases in disability ratings, for cases in which increases are justified by a veteran’s service record and health status. Students may also help veterans upgrade other-than-honorable discharges from the military so that these veterans become eligible for disability and health care benefits. Working alongside physicians, other clinicians and experienced attorneys, students help veterans with service-connected disabilities establish that their disabling conditions are service-connected.

The Clinic is part of Starbucks’ Military Mondays — an innovative public-private partnership that engages community veterans in conversation and provides free legal counsel at nearby Starbucks locations.
