**INTERNET ACCESS TO WEBSURROGATES (PUBLIC RECORD)**

Update as of 7/26/21

Unfortunately, internet access to the public record via the Websurrogates program has been suspended indefinitely as State DOT and OCA Counsel's Office work out issues pertaining to the adequacy of the efforts to redact certain Confidential Personal Information from such records. We have not been given a timetable for resolution.

Please note that the public record remains available at the court, via intranet access.

We are sorry for the inconvenience, advocating vigorously for internet access to be restored, and will post a notice when the issue is ultimately resolved.
